

GUANGXI BEIBU GULF AIRLINES

A320 TYPE RATED CAPTAINS

Guangxi Beibu Gulf Airlines (GX Air) is a new airline based in Nanning, the capital of Guangxi Province in Southern China.

As a new subsidiary of the HNA Group, GX Air has grown rapidly and has recently started recruiting foreign pilots with an excellent package offered for experienced A320 Captains.

Supported by the HNA Group and local government, GX Air is planning on growing its fleet and route structure over the next few years. Current routes cover most hub cities in China like Tianjin, Haikou, Xian, Kunming etc. and the company plans to develop international flights to Southeast Asia such as Singapore, Bangkok, Jakarta, Manila and Hong Kong.

Contracts are 4 years in length, with many resident and commuting lifestyles options available.

Salary payable varies considerably based upon the roster selected, however all rosters offer well above average salary and pilots can expect to earn from US\$242,000 to US\$305,000 per year. And remember, like most airlines in China, GX Air pays your Chinese income tax liability so all payments are net in your hand.

The combination of high monthly remuneration, numerous lifestyle roster choices and 4 year contract length makes this a highly competitive contract for any A320 Captain.

Review our website at www.longreachchina.com for more details.
